of Technology

PROFESSIONAL SUMMARY

Full Stack, AI/ML Developer with 250+ DSA problems solved on LeetCode. Experienced in building scalable backend systems, deploying end-to-end ML pipelines. Passionate about engineering impactful solutions through efficient system design and development workflows.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 6.5/10.0
Intermediate (Class XII)	2022 - 2023
Delhi Public School	Grade: 63.6%
Matriculation (Class X)	2020 - 2021
St. Joseph's Convent High School	Grade: 82.0%

PROJECTS

News Credibility Monitor ([Github](#)) ([Demo](#)) March 2026

- Built an AI-powered news credibility platform to classify real vs fake news using **TF-IDF + Logistic Regression**, multi-agent reasoning, and retrieval-backed evidence.
- Developed a scalable FastAPI backend in Python for text preprocessing, **Logistic Regression** inference, and reliable **API** responses and Integrated LangGraph agents with **Groq** and **ChromaDB** to generate context-aware.

DentEase ([Github](#)) ([Demo](#)) December 2025

- Built a full-stack dental appointment platform with secure authentication, online booking, and patient communication in one system.
- Developed the app using **Next.js**, **TypeScript**, **Tailwind CSS**, **Clerk**, **Prisma**, and **PostgreSQL** with clean workflows for patients and admins. Integrated a **Vapi** AI voice assistant, **TanStack Query**, and Resend to support dental guidance, real-time data handling, and booking confirmations.

Social Media Web App (Sneak) ([Github](#)) ([Demo](#)) October 2025

- Built a full-stack social media platform enabling secure user interaction, content sharing, and real-time engagement through posts and stories.
- Developed the application using the **MERN** stack (**MongoDB**, **Express**, **React**, **Node.js**) with **JWT-based** authentication, secure password hashing, and scalable backend architecture.
- Implemented customizable user profiles, dynamic activity feeds, and Instagram-like story features with a responsive UI using React and **Tailwind CSS**.

CERTIFICATIONS

AWS - Solutions Architecture Job Simulation Forage ([Link](#)) December 2025

- Completed a hands-on job simulation focused on designing scalable, secure, and cost-effective cloud architectures using AWS services

JPMorganChase - Software Engineering Job Simulation Forage ([Link](#)) December 2025

- Completed hands-on tasks covering project setup, system integration, and backend development

SKILLS

Computer Languages: Python, SQL, TypeScript, HTML, CSS, JavaScript, Java

Data Tools: Power BI

Software Packages: Pandas, Matplotlib, MySQL, Next.js, Tailwind CSS, Prisma ORM, React, Node.js, Excel, Express JS, MongoDB

Others: AWS, Git and Github, Spreadsheet, UI/UX, Analytics, API testing, GenAI, GitHub Actions, Tableau

EXTRA-CURRICULAR ACTIVITIES

- **3rd Place** — Neutron Fest (Algorithm Competition)
- **Runner-Up** — DTU Sports Fest (Cricket)
